CollPlant CEO Yehiel Tal elected to the Board of Directors of the International Society for Biofabrication (ISBF)

REHOVOT, Israel, September 9, 2021/PRNewswire/ -- **CollPlant** (NASDAQ: CLGN), a regenerative and aesthetics medicine company developing innovative technologies and products for tissue regeneration and organ manufacturing, today announced that Mr. Yehiel Tal, Chief Executive Officer of CollPlant, has been elected to the Board of Directors of the International Society for Biofabrication (ISBF) for a three-year term starting January 1st 2022.

Mr. Tal was appointed to the Board of Directors of ISBF in recognition of his deep involvement, experience and understanding of the 3D bioprinting industry. The ISBF is a scientific and professional Society, which promotes advances in Biofabrication research, development, education, training, and medical and clinical applications. The ISBF's core purpose is to foster scientific and technological innovation and excellence for the benefit of humanity.

"I am honored to be elected to the Board of Directors of the ISBF, and to work with others who are shaping and advancing the field of biofabrication which holds great promise in development of in vitro 3D models, tissue engineering and regenerative therapies" stated Mr. Tal.

"We are pleased to welcome Mr. Tal to ISBF's Board of Directors," stated Prof. James J. Yoo, ISBF President, "Mr. Tal is a highly accomplished innovator in the field of 3D bioprinting and will bring a level of knowledge and passion that will greatly benefit our organization's mission to foster scientific and technological advancement in the field of biofabrication that benefits humanity."

About the International Society for Biofabrication

The International Society for Biofabrication (ISBF) is a scientific and professional Society, which promotes advances in Biofabrication research, development, education, training, and medical and clinical applications. ISBF represents the international Biofabrication community and operate as a non-profit organization. ISBF's core purpose is to foster scientific and technological innovation and excellence for the benefit of humanity. ISBF promote the interaction between the different disciplines of the field of Biofabrication, as well as between basic research and applied practice; and cooperate with other scientific organizations and communities.

About CollPlant

CollPlant is a regenerative and aesthetic medicine company focused on 3D bioprinting of tissues and organs, and medical aesthetics. The Company's products are based on its recombinant human collagen produced with CollPlant's proprietary plant based genetic engineering technology. These products address indications for the diverse fields of tissue repair, aesthetics, and organ manufacturing, and are ushering in a new era in regenerative and aesthetic medicine.

CollPlant recently entered a development and global commercialization agreement for dermal and soft tissue fillers with Allergan, an AbbVie company, the global leader in the dermal filler market. Later in 2021, CollPlant entered a strategic co-development agreement with 3D Systems for a 3D bioprinted regenerative soft tissue matrix for use in breast reconstruction procedures in combination with an implant.
